# Catalog of Books

## Thank You!

A special Thank You to all customers who have done business with us in the last year. We look forward to serving you in the coming year!

## Our Goal - To Provide Quality, Character-Building Reading Material

Are you concerned about the quality of books you buy for your home or bookstore? Are you also finding out that you just don't have the time to review all the books you buy? Be assured that all the books that we sell have been carefully reviewed for quality content before being accepted into our catalog. Around half the books don't "make the grade". However, the good news is that there are still enough "good" books around to keep even the most avid reader going for a long time!

All religious songs included in songbooks we have published must have sound spiritual content, with a tune that complements the message and is reasonably easy to learn and sing. Secular songs are included in songbooks designed for school or home singing. *All songbooks listed use shaped notes.*

## Many New Titles!

Our 2023 catalog contains over 1,800 titles, including a number of books which have been recently published. Price and availability subject to change without notice. Though prices continue to change, the biggest reason for fluctuation is the difference in exchange between the US and Canadian dollar.

## Note to Proofreaders

Some books by other publishers may express beliefs or contain incidents or expressions we do not appreciate. We accept some minor negative points if we feel that the overall effect of reading the book will be positive.

The following codes, preceded by "R:" in the review will alert you to some of these points:

|                                       |               |
|---------------------------------------|---------------|
| LG - Unacceptable language            | VL - Violence |
| LY - Lying, deceit or dishonesty      | RC - Romance  |
| FT - False Teaching (evolution, etc.) |               |

## Grade Levels

Grade levels listed are guidelines only, as reading abilities differ greatly from one child to another. (*Many grownups still enjoy children's books!*) Lower grades: 1 to 3; Middle grades: 4 to 6; Upper grades: 7 to 9.

## Note to Bookstores

Special discounts are given to bookstores. A wholesale order form and discount schedule is available upon request if you do not have one.

The code **PVP** by the price indicates a PrairieView Press publication. **Ptd** indicates a book where we have handled the printing. Asterisks (\*\*) are discount codes for bookstores.
